Even as virus deaths mount, governments eye exit strategies

By MARINA VILLENUEVE AND LORI HINNANT
Associated Press

NEW YORK (AP) — Even as coronavirus deaths mount across Europe, New York and other hot spots, the U.S. and other governments are beginning to envision an exit strategy and contemplating a staggered and carefully calibrated relaxation of the restrictions designed to curb the scourge. "To end the confinement, we're not going to go from black to white; we're going to go from black to gray," top French epidemiologist Jean-François Delfraissy said in a radio interview.

At the same time, politicians and health officials emphatically warn that while deaths, hospitalizations and new infections may be leveling off in places like Italy and Spain, and even New York has seen encouraging signs amid the gloom, the crisis is far from over, and a catastrophic second wave could hit if countries let their guard down too soon. "We are flattening the curve because we are rigorous about social distancing," New York Gov. Andrew Cuomo said. "But it's not a time to be complacent. It's not a time to do anything different than we've been doing."

Den pleno reunion di parlamento riba crisis di coronavirus

Minister di Finansa a informa cu Fitch a downgrade Aruba

ORANJESTAD - Ayera durante reunion publico, gobierno a informa parlamento riba e decisionnan cu nan ta bin tumando gradualmente pa atende cu e menasa y crisis di e coronavirus/covid-19.

Prome Minister, Evelyn Wever-Croes a referi riba cada un di e medidanan cu gobierno a introduci desde cu Covid-19 a bati na nos porta dia 13 di

maart ultimo. Nan ta mas cu 20 medida cu actualmente ta vigente te dia 19 di april, pero el a adverti cu esaki no kiermen cu nan lo elimina e medida riba e fecha aki. Den curso di otro siman nan lo evalua cada un di nan y dicidi cual di nan lo sigui, cual no y cual mas lo bin acerca. El a referi tambe na e cantidad di caso positivo di cual tin un mucha di 6 aña. Y tambe esunnan cu ta interna den hospital ta

10 di cual 3 ta den unidad di cuido intensivo (ICU).

Tambe el a referi cu gobierno a dicidi di aumenta e medidanan aki mirando cu e weekend aki ta uno critico y di hopi riesgo, ya cu nos comunidad ta gusta bay lama den e fin di siman Pasco Grandi. Tambe el a muestra su positivismo cu na final pais Aruba lo sali afo y lo bin na un bon entendimento cu Hulanda.

Awe diahuebs lo tuma luga e reunion den seno di conseho di minister di Reino, caminda decision lo cay riba e tipo di ayudo cu lo wordo canalisa pa Aruba y otro partner den Reino.

Na inicio di e reunion aki, presidente di Parlamento, Juan 'Ady' Thijsen a considera e seccion aki 'hopi importante.' Debi cu nan lo trata e tema di e coronavirus y su consecucionan. "Mi ta kere y mi ta spera cu tur hende posibel por sigui e reunion aki, pasobra e ta bon pa nos tur sa con nos ta para y unda nos ta bay," el a bisa.

Fitch a downgrade Aruba

E reunion aki a tuma luga na momento cu e compania di rating Fitch a downgrade Aruba na BB outlook negativo, y nos pais ta perde e investment rate. E rating aki ta pone nos pais den un situacion dificil pa haya credito riba mercado internacional pa atende cu e crisis actual.

Minister di Finansa y Asunto Economico, Xiomara Maduro a indica cu esaki ta debi na e sla cu Covid-19 ta trece pa nos isla. El a bisa cu e compania aki a presenta un panorama di e paisnan cu a resulta afecta substancial debi na e

caida di turismo.

"Lamentablemente mi tin cu bisa cu Aruba ta den e prome luga," el a bisa. E documento di Fitch ta trece dilanti e efectonan di pais Aruba. Y un di dje ta e acceso na fondo di emergencia necesario pa nos pais por atende cu e reto socioeconomico cu e pandemia aki a ocasiona riba nos isla. E siguiente step cu nan mester bin cu ne y cu ainda nos ta stagna den dje, door di inseguridad cu ta reina riba e yudansa cu Aruba por haya di Reino Hulandes. E ayudo aki ta importante pa asina gobierno por haya e fondo necesario pa atende cu e parti esencial di nos pais.

E situacion cu a surgi despues cu e colegio di supervision financiero CAft a manda su conseho pa conseho di minister di Reino ta alimenta e incertidumbre aki. Esaki a ocasiona tambe e reaccion di e tres fraccion (MEP-POR-RED) cu ta sostene e gobierno di coalicion pa medio di un carta manda na Gobernador di Aruba, caminda nan ta muestra nan indignacion pa e posicion di Hulanda di no otorga donacion, sino ayudo den forma di prestamo, sin tene cuenta cu Statuut di Reino.

Segun Sharline Koolman di DVG

Aruba ta uza hidroxycloquinina cu pashent di coronavirus

ORANJESTAD - Aruba a sigui e mesun paso di paisnan manera Merca y Colombia cu ta haci uzo hospitalario y clinico di e remedi Hidroxycloquinina, pa atende e pashentnan positivo di coronavirus of Covid-19.

Sharline Koolman di DVG dunado contesta na e pregunta lansa pa Bon Dia Aruba a confirma cu actualmente ta wordo haci uzo di Hidroxycloquinina pa atende e pashentnan cu Covid-19. "Si. E remedi aki tambe ta wordo uza na Aruba ora cu tin mester," el a declara.

Hidroxycloquinina, un palabra un tiki dificil pa pronuncia, pero cu tabata den boca di presidente Donald Trump diferente biaha durante e ultimo dianan. E ta un medicina cu a wordo uza durante ultimo decananan pa trata malaria (paludismo) y tambe ta wordo uza pa trata artritis severo y Lupus entre otro.

Aunke FDA (Food and Drugs Administration) a bisa na prome luga cu e tabata aproba solamente pa haci test pa aclaria si tabata efectivo of no, dia 29 di maart a wordo emiti un "autorisacion di uzo di emergencia" pa e medicina aki wordo uza den algun pashent cu coronavirus. Sin embargo e director ehecutivo di WHO Michael J. Ryan a bisa dialuna pasa cu a pesar cu tin diferente "cocktail" de medicina, WHO no a aproba ningun tratamiento medico pa e Covid-19.

Fitch Ratings ta downgrade Aruba te BB; Outlook negativo

NEW YORK - Fitch Ratings a downgrade Aruba su status pa 'Long-Term Foreign and Local Currency Issuer Default Ratings (IDR) di 'BBB-' pa 'BB', cu Outlook negativo.

E agencia ta skirbi cu e downgrade ta refleha e caida fuerte economico anticipa na Aruba pa motibo di perdida di entrada procedente di turismo na 2020-2021 y e deterioro severo den cuentanan fiscal y externo como resultado. Fitch ta proyecta cu Aruba su correlacion Debe/GDP (debe gubernamental consolida) lo

aumenta di 62.8% na 2019 te na 92.6% na 2020.

“Nos ta anticipa apoyo financiero den algun forma di Reino Hulandes di cual Aruba ta miembro cu un ‘status aparte’ pa asisti gobierno di Aruba cu su requerimentonan financiero extraordinario, pa facilita economia di e isla pa por absorbe un shock hopi grandi. E Outlook Negativo ta refleha e riesgonan considerable den direccion abao pa nos pronosticonan global y Aruba su industria turistico, di e pandemia global di coronavirus, como tambe e

capacidad di autoridadnan pa decididamente corta e peso di debe, ora economia recupera cuminsando na 2021.

Autoridadnan di Aruba ta anticipa un caida di 80%den entrada di turismo despues di medida di lockdown mundial y e clausura di e aeropuerto nacional pa bishitante stranhero na maart. Turismo ta Aruba su sector economico principal, y Fitch ta calcula entrada for di turismo na 63% di GDP y 76% di actual entrada di exterior (current external receipts; CXR) na 2019, haciendo Aruba un

di e teritorionan soberano mas dependiente di turismo. Fitch ta anticipa contraccion economico fuerte den e meradonan principal di Aruba: Merca (-3.3% real GDP), Canada (-3.6%), y paisnan di Eurozone (-4.2%) na 2020 y un recuperacion na 2021, aunke tin un ‘downside risk’.

Ta pronostica cu e ‘freeze’ turistico y Aruba su medidanan di cuarentena y lockdown lo causa un contraccion di 10% di GDP real di Aruba, lo aumenta desempleo dramáticamente y lo reduci actividad di negoshi chikito, y lo dete-

riora cuenta corriente te na un deficit di 15% di GDP, di un surplus chikito na 2019.

Cu esaki Aruba a cay den e categoria ‘BB’ cu ta considera speculativo of ‘junk’. Categoria ‘BBB’ ta esun mas abao cu ta considera ainda ‘investment grade’ den cual Aruba tabata varios aña caba, desde cu a perde e status ‘A’ cu nos tabatin anteriormente. Na 2011 Aruba tabatin un rating di ‘A’ di Standard & Poors. E downgrading aki, cu ta logico den e circunstancianan actual, lo ta bay tin consecuencia pa haya placa fia na un interes razonable.

Skoa cu encuesta pa haya datonan di internet na cas

ORANJESTAD - Algun dia atras, Stichting Katholiek Onderwijs Aruba (Skoa) a traves di su Facebook page a publica un encuesta tocante internet na cas, na unda mayornan mester haya e-mail adres di alumno di Skoa pa asina por yena e encuesta aki.

Tocante esaki, su director Anuesca Baly a manifesta pa Bon Dia Aruba cu e encuesta aki tin algun dia andando y mas o menos den un siman of siman y mey nan por haya un bista completo di e resultadonan; pa motibo cu Skoa tin casi 10.000 alumno, su obhetivo ta pa aporta mas na enseñansa digital.

Baly a expresa cu nan a duna pa tur estudiante di scolnan di Skoa desde scol preparatorio te cu scol secundario Mavo un e-mail adres pa nan of nan mayor por haci uso di dje pa yena e encuesta aki cu ta den idioma papiamento, ademas ta importante pa destaca cu si un mayor tin mas di un yiu den un scol diferente di Skoa, lo ta bon pa yena e encuesta separa pa cada yiu.

Un bes cu encuesta ta wordo yena, Baly a splica cu nan lo haya e data y si algun mayor no ta yena e encuesta nan ta pidi pa e cabesante cu tambe tin e e-mail di alumnonan pa transmiti pa e mayornan, tambe e den caso cu mayor no tin internet na cas ni algun otro dispositivo pa por subi riba internet nan ta saca como conclusion cu e estudiante no tin internet disponible pa haci su les.

Asina mes, el a sigura cu un bes nan ta haya tur e data nan lo traha den colaboracion cu Central Bureau Sta-

tistics (CBS), Skoa lo duna e data pa nan por saca afo si tur alumno tin internet na cas, con e velocidad di internet ta y desde cua dispositivo nan ta haya internet.

Te na e momentonan aki, Baly a laga sa cu e total di mayornan cu a contesta e encuesta ta 2.500 pero ainda ta falta, el a haci un peticion pa mayornan por yena e encuesta cu ta disponibel na website di Skoa lo mas pronto posibel cu e e-mail adres di e alumno.

Di mesun manera, Baly a afirma cu no tur muchanan ta den cas haciendo nan ‘homeschooling’ pa motibo cu desde dos siman caba ora scolnan a wordo cera pa via di e virus COVID-19 tur scol haya paketenan di papel cu ta pa e muchanan traha esey na cas door cu nan no tin internet na cas.

Baly a haci referencia cu nan no sa e cantidad di cuanto studentenan no tin internet na cas y e proximo paso ta pa wak con esey por wordo drecha den futuro, pa motibo cu esaki lo bay ta un problema den sentido cu minister di Enseñansa a informa cu scolnan lo keda cera te cu dia 20 di april pero mirando e situacion esey por cambia y por bira un tiki mas largo.

Di parti di Skoa, el a bisa cu nan a sinta cu hopi docente na e momentonan aki via e aplicacion di internet Google Meet na unda nan a papia y trece dilanti kico nan deseonan ta pa lo cual ta e muchanan na cas, por ehemplo, esun di kleuter cu tin mayornan cu por yuda pero no tur tampoco por haci esey pa motibo cu nan tambe ta traha den e prome linea como hospital y polis y nan a pidi pa encurasha e mayornan

pero no exige hopi pa motibo cu e situacion aki ta fuera di normal.

Tambe nan ta considera cu no

tur mucha tin e espacio den cas pa nan por haci nan les, por ta cu nan ta biba den un cas chikito y nan tin su henter famia den cas na e momen-

tonan aki loke ta haci di e situacion un tiki mas dificil, p’esey tampoco ta un exigencia basta grandi, “nan por haci loke nan por”, Baly a expresa.

Miembronan local Cft/CAft ta desapropa conseho na Gobierno di Reino

ORANJESTAD - E miembronan nombra riba recomendacion di e islanan den e organismo Cft/CAft mediante un carta dirigi na presidente di e colegio di conseho financiero aki, prof. dr. Raymond Gradus, a distancia nan mes di e conseho cu na nomber di e organismo a bay pa Conseho di Ministro di Reino.

Den e conseho a duna e pensamiento di e demas miembronan, cu ta basicamente Gradus mes y e otro miembro, ex-ministro Hulandes Henk Kamp. E conseho tabata trata di e apoyo financiero pa mantene liquidez adecua na e islanan, despues di e catastrofe di coronavirus, cu a laga principalmente Aruba sin un gran parti di su divisa, cu ta drenta casi exclusivamente via turismo.

ismo.

E miembronan inconforme, entre nan e miembro pa Aruba mr. Hellen van der Wal, ta bisa den nan carta cu nan respectivo comentarionan no a resona den e consehonan final y cu no a aplica 'hoor en wederhoor' den e proceso di yega na e conseho.

Por lo tanto e miembronan

mentiona ta desea di enfatisa cu:

1. E consehonan insuficientemente ta refleha e sentimentonan di e miembronan di Caribe den e organismo;
 2. E miembronan di Caribe ta reconoce insuficientemente nan vision y posicion den e consehonan;
 3. Cu e consehonan no ta reconoce suficientemente e seriedad di e situacion den e paisnan den Caribe;
 4. E consehonan ta orienta demasiado unilateralmente riba e situacion financiero y no ta tene cuenta cu e consecuencianan social y economico (ta referi e.o. na e rapport di IMF encuanto e impacto economico di e pandemia pa Curaçao y Sint Maarten);
 5. E consehonan ta ignora totalmente e idea di solidaridad di Statuut di Reino Hulandes.
- Cu e hecho di ignora e observacion y punto di vista di e suscritonan, nan ta opina cu no tin un conseho bon pensa y balansa na Conseho di Ministro di Reino, ni tampoco por papia di un conseho na nomber di e colegionan.

"Como miembronan local

nos ta apoya e yamado di tur e organisacion y plataforma manera IMF, OECD y Comision Europeo pa den e tempo di crisis aki ta solidario cu otro, como tambe e yamado pa e paisnan cu economia mas fuerte y cu reserva ta explicitamente solidario cu e economianan chikito y pover cu proporcionalmente ta haya golpi mas fuerte, y pa apoya nan 'with no strings attached'.

E miembronan ta expresa e temor cu riba nan mes e islanan no ta bay logra, tambe pa motibo di e situacion den cual nan tabata prome cu e crisis di coronavirus. Nan ta di opinion cu si e apoyo Hulandes ta solamente den forma di prestamo, e corelacion debe/GDP lo surpasa grandemente e criterio di 40% pa 'Small Island Developing States' (SIDS) cu IMF a establece y cu e actual crisis lo haci cu e paisnan ta bay mas ainda den e abismo.

P'esey e miembronan ta pidi gobierno di Reino pa considera duna un parti den forma di un donacion, cu por ta e parti cu ta surpasa e corelacion debe/GDP di 40%.

Durante e dianan venidero aki di Semana Santa

Gobierno a dicidi di reforsa medida di shelter in place

ORANJESTAD - Diamars anochi cu 74 caso positivo di Coronavirus/Covid-19 y bayendo na e di cuater siman cu a wordo informadiala 13 di maart ultimoriba e prome casonan di coronavirus/Covid-19 na Aruba, Prome Minister, Evelyn Wever-Croes a informa cu nos ta bayendo "OK" pero no full bon.

Sinembargo durante e dianan venidero aki di Semana Santa, gobierno a dicidi di reforsa e medida di shelter in place. Diabierna Santo y Diadomingo di Pasco Grandi, tur luga lo ta cera. E unico excepcion ta boticanan, pompstation (7am t/c 7 pm), dokter y negoshinan cu ta duna servicio di deliver (11am t/c 7 pm). Tampoco lo tin baymento di lama ni beach, den e dianan aki. Gobierno ta considera e dianan festivo aki como dianan di riesgo y p'esey nan a dicidi di bin cu medidanan mas stricto, caminda bay lama den gruponan grandi no ta permiti.

Ademas e ta recorda cu tin

e samenscholing verbod cu ta prohibi concentracion of grupo di cuater hende of mas. Nan ta prohibi pa bini hunto na lama (beach), park, etc... Tur esaki pa evita cu e virus di Covid-19 lo sigui plama den comunidad.

Ta asina cu awe diahuebs ora cu e toque de queda ta cuminsa for di 9'or anochi te 6'or di mainta, sigui despues pa e estado di shelter in place di 6'or di mainta te cu 9'or anochi, gran mayoria di cos ta keda cera te cu diasabra pa 6'or di mainta. Durante e shelter in place den dia lo keda habri boticanan, pompstation, dokter y negoshinan cu ta duna servicio di deliver.

Diasabra e situacion lo ta un tiki mas normal manera e ultimo dianan aki di shelter in place. Pero anochi e toque de queda ta cuminsa atrobe y nos ta keda asina diadomingo cu tur cos cera. Dialuna mainta pa 6'or e situacion lo bira un tiki mas normal.

Coronavirus ta e problema ekikito...

Diesmiles desemplea ta e grandi...

Aruba tin actualmente dos problema. Un di nan ta manehando bastante bon, esey ta e crisis di coronavirus. Te awor nos ta manteniendo un record bastante stabiel, sin ningun morto pa lamenta y cu un score basta agresivo pa loke ta prueba haci. Na inicio tabatin cierto critica, acerta, riba con tabata maneha asunto manera e control riba e personanan cu a haya aviso na entrada na e pais cu nan mester a bay den cuarentena, y no tabata haya debido control riba con nan ta comporta nan mes durante e dos simannan ey. Esey a mehora, ta nos impresion y ta spera cu nos lo sigui den mesun direccion. Naturalmente despues nos ta haya otro decision pa tuma, cu tambe ta trece su desafio, ora mester dicidi na ki momento y con nos ta cuminsa habri porta atrobe.

Otro crisis cu nos ta haya nos aden a consecuencia di e coronavirus, ta hopi mas grave y lo tuma hopi mas tempo pa resolve. No ta solamente e cantidad grandi di persona cu ta sin trabao, pero na e momento aki caba ta cuminsa bira mas cla cu e mal soño aki no ta bay laga nos dentro di un par di luna. Nos lo mester prepara pa un aña completo cu ta bay ta hopi dificil, mientras por spera pa mas tempran un recuperacion otro aña. Si nos ta acepta esey como e escenario mas probable, anto nos lo mester prepara pa loke ta bin. Y ta aki ta unda nos tin nos dudanan si nos ta haciendo loke nos mester haci.

Por ehemplo e manera cu ta atende e problema di miles di trahador desemplea, cu hopi mas cu por perde nan trabao den e proximo lunanan si e empresa unda nan ta traha no logra mantene cabez riba awa. Loke nos por a mira cu e mandatario encarga cu Labor y Asunto Social a sali dilanti cu un programa pa atende desempleado individual na prome lugar. No ta cuestiona su empeño pero si e metodo aplica. A core pone enfasis riba e persona individual cu por haya ayudo, y a pone e asunto di e empresario na segundo plano. Esaki por resulta un error costoso. Kico ta pasando?

Nos tin miles di persona cu ta na merced di haya un compensacion pa nan sobrevivir, mientras cu esaki no tin un relacion mas cu nan dunador di trabao. Si a cuminsa di biah pa atende e asunto cu e empresanan, marando apoyo na e empresa na e requisito, te unda por, di tene hende riba nan payroll, lo nos

ta gastando placa tambe, pero nos lo tin mas hende na trabao, pues mas placa lo por a bay pa gobierno den forma di impuesto y prima. Esaki lo a haci e posicion di e fondonan di seguro social y medico mas fuerte tambe, reduciendo e riesgo cu nos lo mester bay aporta pisa, cu placa fia, pa mantene nan riba pia. En cortu, nos a crea un caso unda, pa haci un comparacion, nos a duna piscador desemplea pisa pa come, pero nos no a trata di tene e boto operacional pa nan por bay pisa.

Pero e storia no a caba ey. Despues cu ya miles, cerca di 10.000, a perde empleo caba, nos mester atende di tur manera e empresanan cu ta riba pia ainda, pero ta tambalea. Nos sa cu gobierno ta den consulta cu e gremionan empresarial pa elabora un plan con pa apoya sector priva den e situacion actual. Nos no ta duda tampoco di e bon intencion di tur hende, pero tin cierto asunto cu nos mester atende mihor.

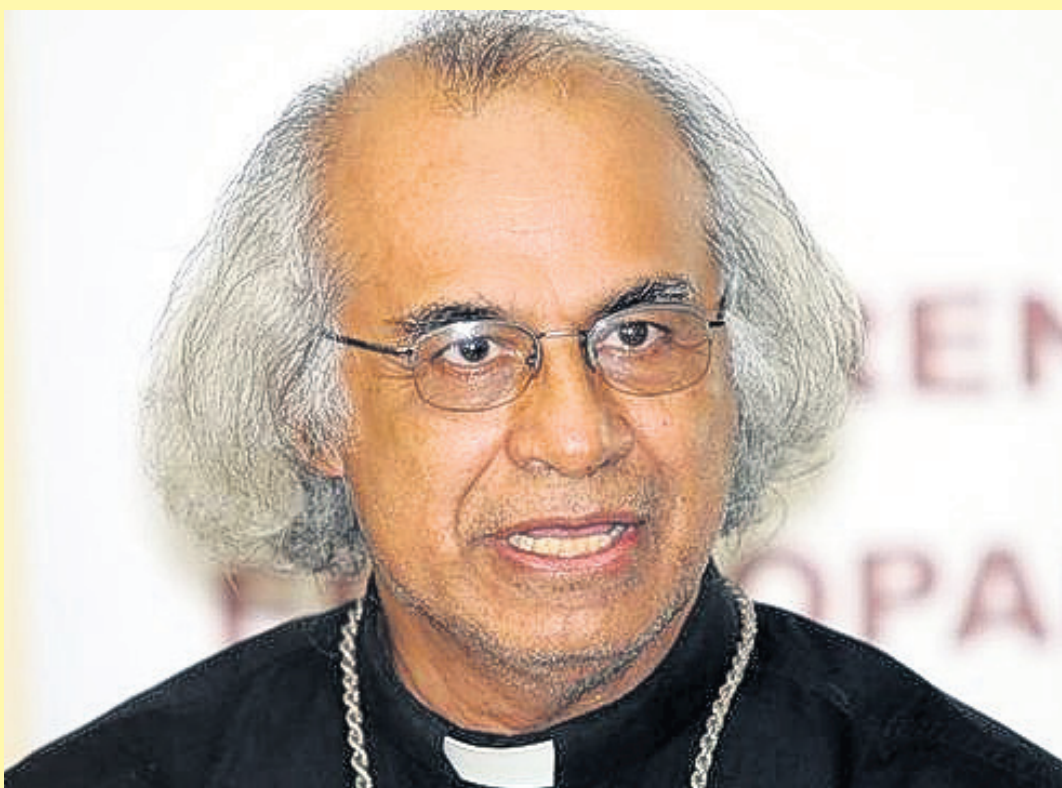

Por ehemplo: awor cu tin miles di hende riba caya caba, y nos nunca a tende di accion contra e dunadornan di trabao cu a probecha di e oportunidad di e promesa di 950 florin pa manda nan empleado caya, awor gobierno mester bay deal cu esnan cu a haci un esfuerzo sikiera pa mantene nan empleadonan riba payroll. Y kico ta e reaccion populista? "Bo no por kita niun hende di trabao; nos no ta acepta peticion pa retiro." Esaki ta simplemente ridiculo, pasobra ki tempo e departamento concerni a yega di haci algo pa trahador cu ta perde trabao, den tempo bon, y awor cu bo a laga casi diesmil bay caya caba sin comenta, awor bo ta bay 'play tough' cu esnan cu sikiera tin e decencia ainda di cana e caminda legal y pidi permiso pa retiro? Ki tipo di maneho esaki ta? Acaso e director di Labor no por mara su carson bon y bisa e ministro cu ta e como director ta dicidi riba peticion di retiro, despues di e proceso di consulta manera ley ta prescribi. Ley ta ley ainda.

Mas tristo ta cu no ta mira ningun intervencion di otro mandatarionan cu mester sa mihor cu laga nan colega riba e campaña populista aki, cu ta haci mas daño cu bon. Nos kier mira fin di luna con leu ta cu procesa e peticionnan pa ayudo y ken ta haya y ken no. No ta dificil pa imagina e bochorno cu lo tin, si pa fin di luna ainda no a tramita mas cu parti di e miles di peticionnan ey.

Nicaragua: Ortega a prohibi pa un obispo crea centro di prevencion contra coronavirus

MANAGUA (Infobae) - Un obispo catolico cu ta critica e gobierno di Nicaragua a denuncia cu autoridadnan di salud di e pais a prohibie pa crea centronan di prevencion medico y un centro di yamada pa orienta e ciudadanonan riba e medidanan di proteccion contra e coronavirus.

E centronan lo funciona na departamento di Matagalpa, un cu mas poblacion na nort di e pais, bou e direccion di obispo di e diocesis di e region ey, Rolando Alvarez. “MINSA (Ministerio di Salud) a notifica mi cu mi no por hiba dilanti e proyecto di e centronan di prevencion medico, tampoco e Call Center” cu tabata busca informa y orienta e poblacion di e virus. Alvarez a skirbi na Twitter.

Mientras e parti mayor di e paisnan na henter mundo a yama pa aislamiento di

su habitantenan pa detene coronavirus, e gobierno di Daniel Ortega ta mantene

su frontera habri y actividadnan publico.

Alvarez a anuncia mas trempan cu e tabatin cla por lo menos seis centro medico den e departamento ey pa orienta e poblacion riba e coronavirus.

E actitud gubernamental a ser critica pa sector di oposicion cu no ta confia den e cifranan oficial y ta yama e poblacion pa keda na cas pa reduci e contagio.

(Infobae) - E cantidad di morto pa COVID-19 lo aumenta na Latino America den e proximo 3 pa 6 siman, asina a confirma e director di Organizacion Panamericano di Salud

(OPS), asina como tambe a declara cu tur cos ta depende di e cumplimiento di medidanan pa evita e contagio y di e recursonan disponibel.

Experto ta pronostica aumento di morto pa coronavirus na Latino America

Carissa Etienne, titular di oficina regional di Organizacion Mundial di Salud (OMS) a bisa cu e impacto sanitario di e coronavirus nobo no lo bay ta igual na tur e pais di Latino America, pero cu hopi di nan lo cuminsa wak un number mayor di personanan infecta na final di april y comienso di mei.

“Pero claro, cu esaki ta depende di con e paisnan ta cumpli cu distanciamiento social, si nan ta dispuesto pa continua cu e medidanan

aki, si nan tin suficiente trahadonan di salud y suficiente camanan di hospital, specialmente den cuidado intensivo, y si nan ta conta cu suficiente mashinnan di hala rosea y material di proteccion personal” Etienne a señala den un conferencia di prensa via video.

Coronavirus nobo a provoca mas di 80.000 morto y 1,4 miyon di persona contagia na henter mundo desde cu a ser reporta e prome caso na China na luna di december.

Desde e comienso di epidemia, Latino America y Caribe ta suma 1.466 fayecido y 37.545 caso, segun AFP a afirma diamars ultimo.

“Den solo shete dia, nos a mira con e casonan y mortonan a duplica den nos region. E pandemia ta bay hopi lihe”, el a bisa.

“E situacion lo bira pio prome cu lo mehora, y nos tur mes- ter keda prepara pa den proximo siman e situacion lo ta mas dificil”.

Bolivia a dicidi ‘encera’ un ciudad considera como un foco di coronavirus

SANTA CRUZ (Infobae) - Autoridadnan Boliviano diamars ultimo a dicidi di ‘encera’ e ciudad di Montero desde awe diahuebs. Ta trata di e prome medida di e sorto aki pa un ciudad di e pais Andino, como consecuencia di ta considera como un di e foco di contagio pa coronavirus y mas di 20 caso reporta.

Minister di Interior di Defensa, Luis Fernando Lopez, a declara pa e medionan di

comunicacion cu e “decision mas importante” ta implica cu desde diahuebs 12or di anochi nos lo cera Montero”, e medida ta implica impedi e movecion den e ciudad di

mas di 110.000 habitante, e cual ta na 62 kilometer di Santa Cruz e zona cu mas poblacion na Bolivia y cu mas un miyon y mey di habitante. Diaranson ultimo den oranan

di atardi, Bolivia a reporta 15 morto mas y 210 caso positivo di coronavirus. E mita di e transmision a tuma luga na Santa Cruz, e motor economico di e pais.

Lopez a anuncia esaki despues di un reunion den e ciudad aki cu e delegado presidencial na departamento di Santa Cruz, e minister interino Wilfredo Rojo, e gobernador Ruben Costas y alcalde di Montero, Miguel Angel Hurtado. Lopez a agrega cu e presiden-

te interno di Bolivia Jeanine Añez, ‘ta asombra pa e cantidad di caso positivo’ den e ciudad aki, conoci pa e produccion di sucu.

Ta espera cu den oranan prome cu lo dreña na vigor e medida lo emiti un ley municipal pa detaya e caracteristicanan.

Autoridadnan a splica cu e provision di cuminda pa e poblacion ta plania caba, ademas di entrega di un pakete di alimento of canasta familiar pa e famianan cu menos recurso economico.

PHILIPSBURG (thedailyherald)— Tres persona mas a test positivo y 8 morto pa COVID-19 na Sint Maarten, aumentando e total di casonan positivo na 43.

Prome minister a anuncia cu un homber y un muhe a fayece pa motivo di coronavirus, ambos tabatin un problema di salud preexistente. E mandatario ta bisa cu mientras cu nan ta wardando e resultado di Guadeloupe 112 a wordo getest, 40 positivo, y dos persona ta hospitalisa na Centro Medico di Sint Maarten. Un total di 62 persona a test negativo y 10 ta pendiente. 32

persona a recupera.

E number den cuarentena a reduci significativamente, ya cu e personanan a yega e periodo di 14 dia y a Sali di cuarentena. E problema pa autoridadnan ta cu algun persona ta muestra e sintomanan despues di 16 pa 17 y autoridadnan lo move pa extende e periodo di cuarentena obligatorio pa 21 dia pa garantiza cu e personanan no transmiti e virus sin duna cuenta despues di 14 dia.

E manda ta urgi tur persona pa bisti un mask sin nan mester Sali di cas pa protege nan mes pafo di cas.

Homber aresta pa fraude di €850,000 di facemask

AMSTERDAM (Dutch-news.nl) - Autoridad di frontera a resta un homber acusa di vende dos miyon di face mask medico na China cu nunca a wordo entrega. E homber di 49 aña di Purmerend a confirma cu el a vende € 8 miyon di fasemask na ConectID y TKL Health DD ambos cu sede na Wuhan februari ultimo.

ConectID ta propiedad di un empresario Britanico y TKL Health di un empresa-

rio Australiano Chines. E dos compania a paga 850,000 € delante pa asegura e entrega, pero ora e ehecutivonan a biha pa Amsterdam pa wak e productonan, ningun persona parecido a ricibi nan. Mas despues nan a ser dirigi na un comercial local na Rotterdam cu tambe a resulta di ta bashi.

E propietario di ConectID a entrega un keho di fraude na polis di Schiphol. Poco despues el a ricibi un e-mail di Purmerend pidiendo pa e retira e keho y cu e lo paga

e cantidad pendiente den bitcoins.

Polis a rista casnan y negoshinan den e ciudad diaranson y a bay cu documentonan y materialnan mas haci mas investigacion. “Esaki tin prioridad halto specialmente na e momentonan aki” vocero di militar Hulandes Robert van Kapel a bisa NOS. “Un persona a bin di Hulanda cu bon intencion pa cumpra facemask pa yuda e personanan y evita cu cosnan empeora. A cambio el a wordo estafa pa

un suma grandi, esaki ta lamentable.

Prisioneronan di SDKK a bay strike

WILLEMSTAD – . Desde cu e crisis di coronavirus, nan a bisa cu a laga nan pa nan cuenta den un cel yena cu 4 pa 6 persona cada un.

E guarianan no ta bisti hand-schoen of mask. Trahadonan social no ta parce di por resolve e problema aki. Pro-

ductonan di limpieza no ta disponible pa prisioneronan y cuminda ta malo den e dianan aki.

E prisioneronan ta sin recreacion of trabou pa un luna y ta demanda miho proteccion, par di nan cu lo ser manda cas mas trempa pa asina por crea mas espacio.

Armand Hessels:

‘Di neglisha pa sanaa y innova’

ORANJESTAD - Pa mas di 30 aña Aruba ta un pais autonomo den Reino. Gobernacion a caracteriza su mes primordialmente pa neglisha structuralmente e advertencia- y recomendacionnan, en particular pa cu e maneho di personal, e administracion financiero y, despues, e expansion sin limitacion di camber di hotel.

Gobierno tawata sa miho y a ricibi sosten ciegame di Parlamento. A rechasa eventual ‘metemento’ di Hulanda di biaha como recolonizacion. E consecuencia principal: un debe impagabel pa pago obligatorio di interes sumamente halto. Esaki ta e causa principal cu Aruba a drenta e crisis actual di Corona como un pashent moribundo sin ningun posibilidad pa wanta sla.

Record

E crisis actual sin mas tin consecuencia hopi serio y di largo duracion pa Aruba. Por ehempel, e surplus di presu-

puesto di mas o menos Afl. 40 miyon a keda transforma den un solo tiro den un fayó presupuestal di Afl. 1,3 biyon. Nos economia cu ta depende riba un solo fuente, pa tempo indefini lo keda practicamente totalmente asfixia. E posibilidad ta existi cu desempleo lo crece di apenas 5% pa 50%. Pasobra ta anticipa cu mas o menos 25.000 empleado riba un cantidad total di 46.333 (segun SVB), lo perde nan trabou. Esaki ta un desaster di tamaño gigantesco cu hasta ta pone e consecucionan di cierre di Lago na 1985, cu a resulta den un desempleo di 30%, den sombra! No ta por nada cu segun e analisis di Standards & Poor’s Aruba ta figura na e posicion di mas halto riba e lista di pais mas afecta (economicamente) pa e pandemia.

Posicion solitario

Manera ta di custumber, Aruba ta tuma un posicion solitario den Reino en cuanto combatimento di e crisis. Hulanda, incluso e islanan BES, Corsou y Sint Maarten

a scoge pa combati e crisis, financiando parcialmente empresa, specialmente pa paga e gastonan di personal. Asina ta spera di mantene mas o menos e sistema economico mientras cu no lo cay mucho retiro innecesario. Pero gobierno di Aruba a scoge pa e mes percura (parcialmente) pa pago di personal. Segun sector comercial, esaki por ta fatal pa su sobrevivencia, specialmente si e crisis dura largo. Consecuentemente e recuperacion necesario pa medio di empresa lo tuma mas tempo di manera cu situacion di Aruba lo sigui empeora. Un problema adicional ta cu Aruba mes no ta dispone di e medianan financiero necesario pa financia cualke escenario.

Sanea

Bou di e circunstancianan aki ta comprendibel cu Aruba ta acerca Hulanda pa sosten financiero. Segun Banco Central, pa e aña aki so, tin mester di Afl. 1,3 biyon adicional. Probablemente esey ta encera e gastonan excesivo

di un aparato gubernamental cu a crece desproporcional. Tanten no coregi e situacion aki, ningun entidad financiero lo deposita su placa den e pos sin fondo aki, y mas ainda pasobra ta hopi dudoso cu Aruba lo (por) paga e placa aki bek. Sin duda (pueblo di) Hulanda, a pesar cu e mes ta sufri di e consecucionan social-economico serio di e crisis global aki, lo ta dispuestu pa duna un man pa Aruba (y e otro islanan!) por wanta te cierto punto e slanan mas duro. Pero no por spera cu e lo paga tambe pa e consecucionan di decada di ma gobernacion, c.q. criminalidad gubernamental di parti di gobierno consecutivo.

Obliga di guli manda abao

Esey ta nifica cu cualke entidad financiero lo duna asistencia solamente bou di condicion pa por fin concretisa e tantísimo recomendacionnan di tur (inclusivo nos propio!) instancia(nan) pa sanaa. Ta trata entre otro pa reduci e aparato gubernamental. Retiro directo di

personal sin mas bou di e circunstancianan actual ta practicamente imposibel pa motibo social. Pero, anticipando recuperacion economico, por crea areglo di transmision. Por ehempel cu personal di mas di gobierno ta bin prome na remarca pa trabou den hotel cu ta bin cla prome cu ta otorga permiso di trabou pa personal di exterior cu tin cualificacion similar of hasta menos.

Como cu no ta anticipa cu Hulanda ni instancia financiero lo pone henter e suma cu Aruba ta pidi disponible mientras cu e crisis probablemente lo tin efecto riba largo plazo, ta inevitabel cu gobierno y e otro partnernan social lo mester economisa (severamente?!). Pasobra como cu pa masha decada no por a logra financia tur gasto di gobierno cu un ocupacion di hotel di 90%, mester ta cla cu esey no lo logra di ningun manera cu un ocupacion di 0%. Pa tur hende esey ta un pilder amargo.

Hiacintha Thijsen Trimon:

‘AVP a trapa riba Aruba su democracia pa 8 aña, horta y hinca Aruba den debe di biyones di florin’

ORANJESTAD - A.V.P mester stop di culmina odio den curpa di hende awor aki, pasobra locual cu Aruba ta pasa aden ta Fraccion di A.V.P den su totalidad a consenti pa e avestruznan corrupto Mike Eman, Mike de Mesa, y Richard Arends a bira Miyonario ariba custodia di pueblo, awor nan ta yora, pasobra e Baca di lechi Aruba no t’ey mas, pa nan por sigui bebe lechi. E ladronnan avestruz sinberguensa corrupto y Narco complaciente a firma un contract na favor di Citgo, pa nan por sigui bebe lechi, ariba custodia di pueblo.

Mi no por lubida con Henny Eman aborto, a subi un bulldozer cu un sker pa corta e Refineria pa bende pa hero bieu pa kita un pia di Aruba su Economia, y un homber studia sa masha bon, cu ariba un pia un Pais no por sobrevivi. Y pa culmina e obra su ruman Mike Eman ta laga saca e Refineria su mondongonan y shirishiri pa laga e

Refineria putri y muri. Dios no a permiti Mike Eman burdugu corta man, pianan y cabes di e Refineria, sino awe lentamente e pueblo di Aruba lo bay muri di hamber y pobreza, pa satisface Henny Eman aborto y Mike Eman burdugu. Ora Bo ta stima bo Pais manera Bo ta stima bo mes, Bo kier weita bo yunan cu pan ariba nan mesa, pero no sinta den un cas di mortorio cu un grupito hopi chikito ta yora nan famia, e ladronnan corrupto cu enbez nan a para banda di Aruba, nan para banda di Citgo, y a firma pa condena Aruba y a faborece Citgo cu nan firma di Traidor. Danki na Dios cu a pone un Dama Prome Minister Evelyn Wever Croes pa dirigi Aruba cu tin yiu, y sa kico ta un famia y conoce kico ta un dolor den un cas di famia ora no tin cuminda pa come, contra biento fuerte y lamanan bruto, y cu alma y curpa nos Prome Minister Evelyn Wever Croes ta lucha contra e fraccion di A.V.P cu ta sostiene e avestruznan ladronnan, cu a horta tereno di pueblo y a bendenan pa

enrikece nan mes.

Mike Eman, Mike de Meza, y Richard Arends sinberguensanan cu a traha un cama di Oro cu placa di pueblo pa nan por drumi ariba. Pronto husticia lo bati na nan porta. Si ainda a resta Richard Arends un tiki di berguensa y

cuero di cara di locual el a haci, ta miho e no bin den publico mas, pasobra un ladron ta keda semper ladron, sea cu Bo horta un boter di whiskey of un jeans. Tin un luz na horizonte, y den man di Dios e yabi cu lo habri e Refineria ta, y cu Dios su Gracia Fe Speransa y Bendi-

cion, e porta di e Refineria pronto lo habri pa tene Aruba su Economia ariba dos pia, y Dios semper a percura pa su yunan tin cuminda ariba mesa pa come. Mescos cu e traidor Hudas a mata Hesus. Mescos e Fraccion di A.V.P kier mata Aruba.

Booshi Wever (UPP):

‘Gobierno atrobe kier regla e transshipment y refineria den pura manera a sosode cu e presupuesto

ORANJESTAD - Gobierno y Parlamento den e temponan dificil aki NO ta practica transparencia necesario den decisionnan cu ta wordo tuma. Ora wordo puntra pa responsabilisa e decisionnan, ta core colga esakinan na kapstok cu yama Coronavirus. UPP ta pidi nos Creador pa mas pronto cu ta posibel nos sali for di e pandemia aki, pasobra mas cu e plaga perdura, mas e otro plaga di corrupcion y di faboritismo politico na grupitonan ta sigui, bou di capa di un crisis nacional di salud, labor, financiero y economico.

Algun dia atras nos a muestra riba social media, cu nos no ta comprende kico ta e urgencia na e momentonan aki pa

pusha e ley pa exonera Citgo asina lihe dor di Parlamento. Nos a muestra tambe con den un frega di wowo a trata e ley di presupuesto 2020, mientras cu nada no ta cuadra mas. Pero si a bin pa pidi apoderacion pa bay presta 1.3 biyon, sin cu tin un plan y vision hinca den otro. Mas tristo ta cu Parlamento no ni tuma e tempo necesario pa discuti e presupuesto na un forma serio y profundo.

Siman a pasa, den un forma relampago a bay pidi Parlamento pa trata e ley di apoderacion pa terminacion di contracto cu Citgo. Nos ta bin comprende cu, segun Prome Minister, diaranson dia 8 caba, ta trata e ley aki. UPP ta keda puntra, pakico hustamente awor cu Aruba ta den un necesidad financiero dor di e crisis di Coronavi-

rus, nos ta wak cu gobierno ta scoge pa exonera Citgo di su obligacionnan pa cu Aruba. 150 miyon dollar, sin mas ta wordo exonera, bou di e pretexto cu lo no tin nada di saca for di compania, cu excepcion di e 16 miyon dollar di impuesto.

Nos por a mira cu e lidernan di fraccion a manda un carta pa sr. Gobernador, pa urgi na su persona pa intermedia den asunto di ayudo financiero di Hulanda, pa evita cu por bin escalacion aki na Aruba. Dicon nos no a warda kico Hulanda ta bay haci? Hasta nos tin comprendi, apesar cu Aruba lo no ta haciendo su huiswerk manera mester, cu CAft lo ta den cierto forma positivo na Consejo di Minister di Reino pa yuda den e crisis aki. Y di e manera aki nos como pais lo ta den un miho posicion pa negosha un miho deal?

E conferencia di prensa di diamars 8 di September, di e Raad van Toezicht di RdA, aparentemente tabata pa trata na splica cu e “Algemene Kwijtschelding” aki ta nos unico opcion ya cu e contracto di mas di 2000 pagina lo no ta sirbi. Un contrato estrangulante cu 20 miembro di Parlamento a bay di acuerdo hunto cu Gabinete Mike Eman II incluyendo varios ministernan manera Otmar

Oduber, Mike de Meza, Arthur Dowers, Benny Sevinger y Richard Arends. Un contrato estrangulante cu ta perhudicando Aruba. Anto awe varios di e personahenan aki ta sea den gobierno of ta den Parlamento. Cu excepcion di brochi e Octopus y Scorpion, cu ta resulta awor di ta sinta den e Raad van Toezicht di RdA. Pero nan tur awor ta den proceso pa Exonera Citgo y na mes momento pa laba cabe cu shampoo y conditioner di tur e actornan cu na 2016 tabata pensa den nan “partido” y no den pais y tabata pensa riba “next election”. Y nan tur tabata den e contienda pa mira ken lo sali e heroe cu a percura pa e contracto aki wordo firma.

Pues UPP ta premira, cu atrobe nos lo bay haya un reunion cu practicamente si ta posibel, lo wordo pasa como “Hamerstuk” uzando e kapstok di coronavirus. Nos lo bolbe bay wak un Parlamento bashi, na unda cu un pa un lo bay vota pa e ley aki. UPP ta keda cu e pregunta si tur Parlamento nobo y diferente a haya e contracto di 2000 pagina pa lesa te cu nan bay asina leu pa duna Citgo e “Algemene Kwijtschelding” aki of nan ta tuma “for granted” loke cu gobierno y Raad van Toezicht di RdA a presenta awe? Dicon no ta pone e

“contracto di 2000 pagina” digitalmente riba website di gobierno available pa pueblo wak?

Nos a tende e cantaleta pa varios aña di cu AVPORA no a duna ningun copia di e contracto. Nos por a mira nos minpres actual na 2016 expresa su preocupacionnan (<https://www.noticiascandela.informe25.com/.../aruba-evelyn-we...>), cu nos tambe ta comparti. Dicon awor mester termina e cos aki den forma di un “bulldozing”? Nos a tende di placa cu supuestamente mester a bin pa e proyecto, pero cu nunca a yega. Gobierno a priminti cu lo haci un investigacion pa derochamento di placanan cu tabata tin. Unda e resultado di esaki ta? A cuestiona consehero principal di Mike Eman y Mike de Meza, esta primito Richard Arends. Nos por a tende y lesa di fanaticonan di gobierno, cu e meneer aki lo mester ta cera. Pero awor primito, den Raad van Toezicht, lo permiti esaki? Of ta trata aki di un episodio mas di “Cuanto vale el show” pa tene e fanaticonan contento? Atrobe e criminalnan aki lo getaway mescos cu e corrupcion den Serlimar? Awor cu Serlimar a wordo laga den su patarata, ata meneer atrobe den Raad van Toezicht. Di berdad nada a cambia!!

Parlamentario Endy Croes (MEP):

‘A regala Citgo tur assets unda Aruba mester paga Citgo 6 miyon pa aña pa unload fuel’

ORANJESTAD - Parlamentario Endy Croes a amplia riba diferente articulo di e contract di Citgo durante henter siman pa asina pueblo mes por comprende pasagges nan di e contracto aki. Manera a splica anteriormente cu e Ley pa apodera 3 minister tanto Minister Presidente, Minister di Financien y Minister di Infraestructura ta na Parlamento y pronto to ser trata y manera cu esaki wordo aproba e ministernan concerni por actua legalmente firmando e Termination Agreement pa termina e contracto.

Ta enfatisa cu ningun momento Aruba lo perde di

haña 150 miyon us dollar: Parlamentario Endy Croes ta contra aresta e politica “fofo” di oposicion den ultimo dianan cu nan ponencia cu Aruba lo ta regalando Citgo 175 miyon us Dollar. Ningun pero ningun momento esaki ta cuadra cu e berdad como cu e garantia aki ta solamente momento cu Aruba dicidi di desmantela e Refineria cual awor no ta e caso. Tristo pa mira con gobierno anterior a negosha lagando Aruba den un posicion debilita lomba contra muraya firmando un contracto desbentahoso pa pais Aruba.

Artikel 12.3 Gobierno di Aruba a para garantia di \$ 300 miyon:

Mike Eman y Mike de Meza a firma e contracto den number di Pais Aruba pa cu Citgo cual contracto entre otro Abogado Sjefat (amigo di cas di Mike) a negosha cobrando masha masha hopi placa horcando Aruba na un manera cruel. Den artikel 12.3 di e Definitive Participation Agreement (DPA) di 10 di Juni 2016 ta stipula cu Gobierno di Aruba ta para garantia pa incumplimento di RDA/ Gobierno pa un suma di dos bes mas hopi cu e garantia di 150 miyon us Dollar cu PDV Holding a para pa e banda di Citgo. Pues pa un suma di 300 miyon us dollar. Ainda Parlamentario Endy Croes no por comprende con Mike Eman y Mike de

Meza por a firma e contracto aki bou di e condicionnan aki. Firmando e Termination Agreement pronto esaki tambe lo cay afo.

Citgo ta cobra Aruba 6 miyon pa Aruba usa su propio tankinan:

Un parti incomprendibel den henter e contracto aki ta cu Gobierno di Aruba a traspasa “tur” cos pa Citgo 10 di Juni 2016 momento a firma e Definitive Participation Agreement (DPA). Tur tankinan di FMSA , WAF, tubonan, pompnan y practicamente tur cos. Aruba sinembargo mester usa cierto tankinan pa Gasolin, Diesel, Jetfuel y Fueloil(pa WEB), momento barconan trece e produc-

tonan aki (mayoria pa pueblo su uso). Citgo ta cobra Aruba /(RDA) desde cu e barco mara na waf, uso di e liña y pumpnan cu ta pump e producto y tankinan pa storage di e productonan. Esaki na balor di 3.3 us kenta pa galon cual ta suma un suma total di 6 miyon florin pa aña. Pueblo e 6 miyon aki Bo por a ricibie como descuento riba gasolin, pero Mike Eman y Mike De Meza y AVP tabata tin otro pensamiento y ken sa pakico un deal asina cruel? Pues Citgo ta paga RDA 18 miyon pa aña na huur y RDA ta paga Citgo bek 6 miyon pa aña pa handle fuel pa pueblo. Contract na e forma aki ta mescos cu negoshi cangreu Croes ta termina bisando.

Parlamentario Alan Howell (POR):

‘Awor loke ta conta ta nos pais y nos hendenan’

ORANJESTAD - Durante reunion publico di Parlamento pa atende e tema di Corona Virus, parlamentario Alan Howell a indica cu por hiba e reunion den un ambito politico, humano of di Reino, pero e ta scoge pa bay riba e aspecto humano.

Presidente di World Health Organization (WHO) a avisa for di cuminsamento loke lo bay pasa na momento cu e virus aki bati na bo porta y cu mester prepara. P’esey e ta bisa cu e ta hopi contento con nos gobierno ta atendiendo e situacion y a pidi tur minister pa sigui atende e situacion asina, pa sigui ta calmo y sigui scucha di pueblo. Tambe a encurasaha gobierno pa tuma medidanan drastico, pasobra esakinan ta esunnan cu lo yuda scapa nos pais. “Awor no ta interesa ken e ta afecta riba nivel individual, awor loke ta conta ta nos pais, nos hendenan. Ta nos pueblo, nos hendenan humilde ta bin prome”, Alan Howell a declara.

Den e cuadro aki el a puntra Minister di Asuntonan Social con a para cu esnan cu nan bijstand a wordo blokia? A puntra Premier si por mira e posibilidad pa evita rijnan largo pa paga awa y corriente, y mas bien duna e chens pa hendenan por paga nan cuenta despues, promoviendo asi-

na e ‘social distancing’.

Finalizando Alan Howell

a pidi Aruba pa uni y keda

trankilo, pa obedece y asina

nos gana e guerra contra e

virus aki y pa nos isla y nos

hendenan bolbe florece riba

tur nivel.

Corina Linssen, coordinador di Tienda di Educacion, a duna di conoce cu en berdad nos ta pasando den temponan dificil, y tur hende ta pasando den dificultad pa adapta nan mes, algo cu 'nos ta compronde completamente'. Nunca den ultimo temponan a confronta un situacion asina, unda cu muchanan y hende grandi mester keda na cas henter dia. Linssen ta bisa cu cada famia lo mester busca un estructura nobo den cas, pa asina keda trata cu otro.

Segun Linssen, estructura kieren cu mester sigui lanta mainta y wak con e dia ta cana. Lo mester traha un plan pa e dia y pa e siguiente dianan, mester 'tin un plan pa siman'. Di e forma aki, mayornan por curasha e muchanan pa pinta plan pa por haci diferente cos na cas.

Cu un plan diferente pa cada dia, Linssen ta bisa cu por desayuna hunto, cana den bario (pero no den grupo grandi). Por haci uso di naturaleza. Den caso cu mester haci ehercicio pa salud y mantene activo, por haci esaki tambe. "Mester percura pa haci ehercicio", algo cu ta

conta tanto pa adulto como pa mucha.

Un punto importante cu Linssen a menciona, ta ora cu un mucha no por haci movecion. "E ta bira mas druk", locual ta causa cu e ta duna e mayor mas stress. Pues por sigui cu e stap cu ta duna pa por relaha, pero semper cumpliendo cu regla, di bay un luga unda no tin hende y unda ta keto.

Otro tip ta cu por haci wega di mesa, trabou na cas di un manera mas agradabel, famianan por cushina hunto. "Tin hopi actividad cu por haci cu mucha", no mester keda henter dia ta wak television of riba weganan di tablet. "Esey por, pero no henter dia."

Tur actividad ta crea un motivacion den e mucha pa ta mas activo. Tambe canta cantica of karaoke. Pa hoben di un edad mas grandi, tambe ta importante pa duna nan e oportunidad pa expresa nan mes, segun Linssen. Mester permiti nan por papia di e situacion cu examen di scol, of si tin stress pa motibo cu kier sigui nan estudio. Esaki ta un oportunidad tambe pa por reflexiona y pensa ki estudio nan por scoge.

"Laga nan expresa nan mes. Nan por acerca nan mayor cu e confiansa cu nan por combersa, y e hoben por expresa su preocupacion si e tin stress. Tambe por haci reunion familiar pa comparti cu otro", Linssen a splica.

Linssen a bisa cu actualmente por yama 161 si tin mayornan cu kier conseho, por haci uso di e number aki. Nan lo ta dispuesto pa brinda ayudo di 81m te 9pm dialuna te dia bierna. El a comparti cu nan ta dispuesto pa scucha y duna alivio.

E ta recomenda pa adapta lo miho cu por na cas 'y no perde cabes cu bo yiu'. Pa motibo di stress por reaccionar di mal manera. E ta bisa cu ta importante ta pa sinta na mesa y wak kico por haci den e situacion actual.

Fundacion Tienda di Educacion lo keda bezig cu video pa duna tips riba rednan social, pa provee cualkier informacion pa duna sosten na comunidad. Tambe tin otro departamentonan cu ta brinda nan servicio den caso cu mester di un psicologo of psiquiatra pa atende cu cierto asunto.

Na momento cu un mayor of mucha ta sinti cu ta perdiendo control, por haci uso di departamento. "Yama pa sinti alivio" y asina recupera calma. "Hala rosea pa calma y nos lo keda duna sosten."

Pa emergencianan mas profundo, Linssen a bisa cu por yama polis si ta necesario. "Nan tin e crisis number" cu ta keda funciona. Pa famia cu ta pasando situacion financiero preocupante, por acerca Departamento di Asunto Social pa ricibi sosten. Nan organizacion lo keda disponibel pa persona manda mensahe, y lo duna contesta pa yuda.

Disputa científico na UE memey di crisis di coronavirus

BRUSSELS (AP) — Union Europeo a descende den un disputa tocante politica científico memey di e crisis di coronavirus, despues cu cabesante di su top panel científico a renuncia entre acusacion di burocracia y stancamento institucional.

Profesor Mauro Ferrari a renuncia diamars como presidente di Consejo di Investigación Europeo (ERC), y a insisti den un declaracion cu e titulo dramático ‘Re-

turn to the frontlines, to the frontier’ cu el a ‘perde fe den e sistema’ di UE, bisando cu e ta matando su ambicion pa accion rapido contra e pandemia.

Sinembargo, ayera e consejo científico di 19 miembro di ERC a bisa cu unanimemente nan a pidi Ferrari pa renuncia luna pasa. E Consejo a agrega den un declaracion cu el a ‘demostra un completo falta di apreciacion’ y ‘no ta compronde e contexto’ di e grupo científico. E Consejo

a bisa cu Ferrari a faya pa consulta suficiente cu su científiconan, y hopi biaha a busca promove su propio ideanan na luga di esunnan di ERC.

A nombra Ferrari pa e trabou na mei aña pasa, pero a cuminsa su termino dia 1 di januari. Su rencia tabatin efecto inmediato.

Comision ehecutivo di UE, cu ta encarga di e asuntonan diario di e bloc di 27 nacion, ‘ta lamenta e renuncia di profesor Ferrari na e etapa asina

trempan di su mandato (...) y na e momentonan aki di crisis sin precedente den cual e rol di investigacion di UE ta clave”, vocero Johannes Bahrke a bisa.

ERC ta promove investigacion top den UE y ta reforsa locual ta yama ‘investigacion di frontier impulsa pa investigadonan a traves di tur campo a base di excelencia científico’. A set up esaki na 2006 y ta maneha un presupuesto di 2 biyon euro anual. Financial Times tabata e prome pa anuncia e renuncia, basa riba un declaracion duna pa Ferrari, kende a bisa cu e tabata ‘extremadamente decepciona pa e respuesta Europeo’ pa e pandemia. Ferrari a keha di topa cu obstaculo politico y institucional mientras e tabata busca pa rapidamente set up un programa científico pa combati e virus.

“Mi a mira suficiente di tanto gobierno di ciencia, y operacion politico na Union Europeo”, el a skirbi den e declaracion. “Mi a perde fe den e sistema mes.”

Vicepresidente di consejo ERC lo asumi e debernan di e presidente a base interino te cu UE scoge sucesor di Ferrari, segun Bahrke.

Ferrari a bisa cu e lo bolbe awo ‘na e linea frontal di e pelea contra COVID-19, cu recursonan real y responsabilidad real, leu di oficinanan na Brussels unda claramente mi habilidadnan politico ta inadecua’.

Mientras coronavirus a expande na Italia, España y otro nacion Europeo, UE a ricibi critica pa no actua cu suficiente forza pa set up un contesta coordina, maske politica di salud ta primordialmente un responsabilidad di gobi-erno nacional.

Bahrke a defende accion di UE durante e pandemia, bisando cu e bloc a pone ‘e paquete di medida mas comprensivo pa combati coronavirus’.

El a agrega cu ERC ta trahando cu 50 diferente proyecto relaciona cu e virus nobo, prome identifica na China na fin di aña pasa.

Pandemia ta causa reduccion den emision cu ta contribui na cambio climatico

WASHINGTON (AP) — A pesar di burla di e idea di cambio climatico, presidente Mericano, Donald Trump lo presidi riba un di e reduccionnan mas skerpi di emisionnan dañino pa clima den record, mientras e paralis economico di e pandemia ta reduci uso di energia, segun un proyeccion di Departamento di Energia diamars.

Administracion di Informacion di Energia (EIA) ta proyecta un caída di 7.5% den emision di combustibel fossiel pa 2020. Esey lo ta e reduccion mas grandi den emision di energia na Merca desde sikiera 1990, segun record di EIA. E aña prome cu recesion na 2008 a mira un reduccion di 7.3%.

Trump rutinariamente ta burla di cambio climatico, y su administracion a move pa hala atras di standard mas estricto pa emision y otro esfuersonan pa clima di administracion di Obama.

Di tur forma emisionnan lo reduci e aña aki, pa motibo di economia bahando velocidad y restriccion riba negoshi y biahe relaciona cu e pandemia di coronavirus, EIA a bisa.

Kimamento di combustibel fossiel, y e grado di daño climatico, tipicamente ta recupera na momento cu economia ta recupera despues di impacto negativo.

Globalmente, ‘nos ta mirando reduccion radical den emision di transporte y reduccion den otro sectornan di economia’, segun Rob Jackson di Universidad di Stanford, kende ta lidera un grupo di científico independiente cu ta monitor contaminacion di carbon global. “Nos no a mira nada manera esaki desde e Gran Depresion.”

EIA ta proyecta cu Mericanonan lo kima 9% menos gasolin y diesel y 10% menos jet fuel, y cu sector di electricidad lo genera 3% menos energia en general, entre otro reduccion. Energia solar y di biento - cu ta haya tiki

atencion di Trump, excepto su disgusto pa turbina di biento - lo conta pa mayoria di e generacion di electricidad nobo na e pais, segun e reporte. Mientras competencia di mercado ta duna forma nobo na con Mericanonan ta haya energia, plantanan di produccion lo usa 11% mas renobabel y 20% menos carbon e aña aki. Pronostico di 2020 tambe ta

marca un retraso den e mision frecuentemente declara di Trump, di yuda haci Merca un partido dominante den produccion di energia global. Coronavirus un problema no relaciona den suministro di petroleo, causa pa aumento di produccion di Saudi Arabia y Rusia, lo pone Merca bek como un net importer di petroleo pa sikiera un tempo, mientras drilling domestico

ta stop, e reporte a nota. Cu-alkier acuerdo pa reduci produccion di petroleo por cambio esaki, e agencia a nota.

“E tendencianan aki ta unicamente temporal y nan lo desaparece mesun lihe cu e crisis di coronavirus aki desaparece”, segun científico di clima Jonathan Overpeck, dean di medio ambiente di Universidad di Michigan.

E resultadonan a logra a pesar di un mercado deteriora pa refinaria.

Even as virus deaths mount, governments eye exit strategies

Continued from Front

In a sharp reminder of the danger, New York state on Wednesday recorded its highest one-day increase in deaths, 779, for an overall death toll of almost 6,300. "The bad news is actually terrible," Cuomo lamented. Still, the governor said that hospitalizations are decreasing and that many of those now dying fell ill in the outbreak's earlier stages.

In Britain, meanwhile, Prime Minister Boris Johnson spent a second night in intensive care but was improving and sitting up in bed, authorities said.

In China, the lockdown against Wuhan, the industrial city of 11 million where the global pandemic began, was lifted after 76 days, allowing people to come and go. The reopening was seen as a positive sign but also reflected the communist state's extensive surveillance apparatus and powers of coercion. Wuhan residents will have to use a smartphone app showing that they are healthy and have not been in recent contact with anyone confirmed to have the virus. Even then, schools remain closed, people are still checked for fever when they enter buildings, and masks are strongly encouraged.

In the U.S., with about 13,000 deaths and 400,000 infections, the Centers for Disease Control and Prevention was considering changing self-isolation gui-

delines to make it easier for those exposed to someone with the virus to return to work if they have no symptoms.

Under the proposed guidance, aimed at workers in critical fields, such people would be allowed back on the job if they take their temperature twice a day and wear a mask, said a person who was familiar with the draft but was not authorized to discuss it and spoke on condition of anonymity.

Dr. Anthony Fauci, the nation's top infectious-diseases expert, said that the Trump administration has been working on plans to eventually reopen the country and restart the economy amid "glimmers of hope" that social distancing is

working to stop the virus's spread.

"That doesn't mean we're going to do it right now," he said on Fox News. "But it means we need to be prepared to ease into that. And there's a lot of activity going on."

The U.S. is seeing burgeoning hot spots in such places as Washington, D.C., Louisiana, Chicago, Detroit, Colorado and Pennsylvania. The New York metropolitan area, which includes northern New Jersey, Long Island and lower Connecticut, accounts for about half of all virus deaths in the U.S.

In Europe, Italian Premier Giuseppe Conte is expected to announce in the coming days how long the

country's lockdown will remain in place amid expectations that some restrictions could be eased. Discussions are focused first on opening more of the country's industries.

Proposals being floated in Italy include the issuing of immunity certificates, which would require antibody blood tests, and allowing younger workers to return first, as they show less vulnerability to the virus.

Italy, the hardest-hit country, recorded its biggest one-day jump yet in people counted as recovered and had its smallest one-day increase in deaths in more than a month. Nearly 18,000 have died there.

In Spain, which has tallied more than 14,000 dead,

Budget Minister María Jesús Montero said that Spaniards will progressively recover their "normal life" from April 26 onwards but warned that the "de-escalation" of the lockdown will be "very orderly to avoid a return to the contagion."

The government has been tight-lipped so far about what measures could be in place once the confinement is relaxed, stressing that they will be dictated by experts.

Without giving specifics, French authorities have likewise begun to speak openly of planning the end of the country's confinement period, which is set to expire April 15 but will be extended, according to the president's office. The virus has claimed more than 10,000 lives in France. France's Delfraissy, who leads the scientific council advising the president, said three things are necessary for people to start leaving home regularly: intensive care beds need to be freed up, the spread of the virus must slow, and there have to be multiple tests to see if people are or have been infected and to trace them.

He said the French will also need to wear masks in public.

British government officials, beset with a rising death toll of more than 7,000, said there is little chance the nationwide lockdown there will be eased when its current period ends next week. □

Sanders drops 2020 bid, leaving Biden as likely nominee

By WILL WEISSERT

Associated Press

WASHINGTON (AP) — Sen.

Bernie Sanders ended his presidential bid on Wednesday, making Joe Biden the presumptive Democratic nominee to challenge President Donald Trump in a general election campaign that will be waged against the backdrop of the coronavirus pandemic. Sanders initially exceeded sky-high expectations about his ability to recreate the magic of his 2016 presidential bid, and even overcame a heart attack last October. But he couldn't convert unwavering support from progressives into a viable path to the nomination, with "electability" fears fueled by questions about whether his democratic socialist ideology would be palatable to general election voters.

"The path toward victory is virtually impossible," Sanders told supporters Wednesday. "If I believed we had a feasible path to the nomination I would certainly continue the campaign, but it's just not there."

He called Biden a "very decent man" but didn't offer an explicit endorsement of the former vice president. Sanders said his name would remain on the ballot in states that have not yet held primaries so he can gain more delegates and "exert significant influence" on the Democratic platform.

Biden, who is backed by much of the party's establishment, told supporters at a virtual fundraiser that he

had a "short conversation" with Sanders on Wednesday. "He didn't just run a political campaign. He created a movement," Biden said. "That's a good thing for our nation and our future. His campaign has ended, but I know his leadership will continue."

Trump sought to foment the tension among Democrats by tweeting Wednesday that the party stacked the race against Sanders. The president said the senator's supporters "should come to the Republican Party."

Sanders began his latest White House bid facing questions about whether he could win back the supporters who chose him four years ago as an insurgent alternative to Hillary Clinton. Despite winning 22 states in 2016, there were

no guarantees he'd be a major presidential contender this cycle.

But Sanders used strong polling and solid fundraising — collected almost entirely from small donations made online — to quiet early doubters. Like the first time, he attracted widespread support from young voters and made new inroads within the Hispanic community, even as his appeal with African Americans remained weak.

Sanders amassed the most votes in Iowa and New Hampshire, which opened primary voting, and cruised to an easy victory in Nevada — seemingly leaving him well positioned to sprint to the Democratic nomination while a deeply crowded and divided field of alternatives sunk around him.

But Biden won a crucial endorsement from influential South Carolina Rep. Jim Clyburn and a subsequent, larger-than-expected victory in South Carolina, which propelled him into Super Tuesday, when he won 10 of 14 states.

In a matter of days, Biden's former Democratic rivals lined up to endorse him. His campaign had appeared on the brink of collapse after New Hampshire but found new life as the rest of the party's more moderate establishment coalesced around him as an alternative to Sanders.

Things only got worse the following week when Sanders lost Michigan, where he had campaigned hard and upset Clinton in 2016. He was also beaten in Missouri, Mississippi and Idaho the same night, and the results were so decisive that Sanders headed to Vermont without speaking to the media.

The coronavirus outbreak essentially froze the campaign, preventing Sanders from holding the large rallies that had become his trademark and shifting the primary calendar. It became increasingly unclear where he could notch a victory that would help him regain ground against Biden.

Though he will not be the nominee, Sanders was

a key architect of many of the social policies that dominated the Democratic primary, including a "Medicare for All" universal, government-funded health care plan, tuition-free public college, a \$15 minimum wage and sweeping efforts to fight climate change under the "Green New Deal." Sanders began the 2020 race by arguing that he was the most electable Democrat against Trump. He said his working-class appeal could help Democrats win back Rust Belt states that Trump won in 2016, including Michigan, Wisconsin and Pennsylvania. But as the race wore on, the senator reverted to his 2016 roots, repeatedly stressing that he backs a "political revolution" from the bottom up under the slogan "Not me. Us."

Sanders, 78, also faced persistent questions about being the field's oldest candidate. Those were pushed into the spotlight on Oct. 1, when he was at a rally in Las Vegas and asked for a chair to be brought on stage so he could sit down. Suffering from chest pains afterward, he underwent surgery to insert two stints because of a blocked artery, and his campaign revealed two days later that he had suffered a heart attack.

A serious health scare that might have derailed other campaigns seemed only to help Sanders as his already-strong fundraising got stronger and rising stars on the Democratic left, including Rep. Alexandria Ocasio-Cortez, endorsed him. Many supporters said the heart attack only strengthened their resolve to back him.

Massachusetts Sen. Elizabeth Warren outshone him throughout much of the summer, but Sanders worked his way back up in the polls. The two progressive candidates spent months refusing to attack each other, though Sanders offered a strong defense of Medicare for All after Warren offered a plan for a transition to it that would take years. □

New Jersey delays primary to July because of virus outbreak

TRENTON, N.J. (AP) — New Jersey pushed back its primary to July 7 from June 2 because of the coronavirus outbreak under an executive order Gov. Phil Murphy signed on Wednesday.

Preparing for a June primary at the potential head of the COVID-19 emergency could hurt election officials' ability to prepare, the order states.

Murphy said he's not taking a mail-in ballot only election off the table but hasn't decided. He specifically cited Wisconsin, where a primary went forward despite the health threat.

New Jersey residents should not have to choose between their right to vote and their personal health, Murphy said.

New Jersey is among the

worst-hit states in the country by the coronavirus. More than 1,500 people have died as a result, and the state has been essentially on lockdown for weeks.

The Democrat mentioned specifically that he doesn't want to repeat what Wisconsin had with people having to choose between their right to vote and keeping healthy. □

Italy, Spain ICU pressures decline, but emotional toll rises

By NICOLE WINFIELD, MARIA GRAZIA MURRU and ARITZ PARRA

Associated Press

ROME (AP) — Maddalena Ferrari lets herself cry when she takes off the surgical mask she wears even at home to protect her elderly parents from the coronavirus that surrounds her at work in one of Italy's hardest-hit intensive care units. In the privacy of her own bedroom, where no one can see, the nursing coordinator peels away the mask that both protects her and hides her, and weeps for all the patients lost that day at Bergamo's Pope John XXIII Hospital.

"We're losing an entire generation," Ferrari said at the end of one of her shifts. "They still had so much to teach us."

The pressures on hospital ICUs in Italy and Spain may have eased in recent days as new virus cases decline. But the emotional and psychological toll the pandemic has taken on the doctors and nurses working there is only now beginning to emerge.

Already, two nurses in Italy have killed themselves, and psychologists have mobilized therapists and online platforms to provide free consultation for medical personnel. Individual hospitals hold small group therapy sessions to help

staff cope with the trauma of seeing so much death among patients who are utterly alone.

Seven weeks into Italy's outbreak, the world's deadliest, the adrenaline rush that kept medical personnel going at the start has been replaced by crushing fatigue and fear of getting the virus, researchers say. With many doctors and nurses deprived of their normal family support because they are isolating themselves, the mental health of Italy and Spain's overwhelmed medical personnel is now a focus of their already stressed

health care systems.

"The adrenaline factor works for a month, maximum," said Dr. Alessandro Colombo, director of the health care training academy for the Lombardy region, who is researching the psychological toll of the outbreak on medical personnel. "We are entering the second month, so these people are physically and mentally tired."

According to his preliminary research, the solitude of the patients has had a grievous impact on doctors and nurses. They are being asked to step in at the bedside of the dying in place of

relatives and even priests. The sense of failure among hospital staff, he said, is overwhelming.

"Each time it's a failure," said Ferrari, the nursing coordinator at the Bergamo hospital. You do everything for the patient, and "at the end, if you're a believer, there is someone above you who has decided another destiny for that person."

Her colleague, Maria Bernardelli, said medical personnel aren't used to seeing patients die after two weeks on ventilators, and the emotional toll is devastating.

"This virus is strong. Strong, strong strong," she said in a Skype interview with Ferrari, both of them in masks. "You cannot get used to it, because every patient has his own story."

In Italy, the national association of nurses and psychologists asked the government for a coordinated, nationwide response for the mental health care needs of medical personnel, warning the "typical wave of stress disturbances is only going to grow over time."

The situation is similar in Spain.

Dr. Luis Díaz Izquierdo, from the emergency service ward in suburban Madrid's Severo Ochoa Hospital, said the sense of helplessness is crushing for those who watch as patients deteriorate in a matter of hours.

"No matter what we did, they go, they pass away," he said. "And that person knows that they are dying, because breathing becomes more difficult. And they look into your eyes, they get worse, until they finally surrender."

Diego Alonso, a nurse at Hospital de la Princesa, said he has been using tranquilizers to cope, as have many of his colleagues. For Alonso, the fear is especially acute, given that his wife is due to give birth soon. □

German charity goes home-to-home in virus crisis

BERLIN (AP) — Poor families are particularly hard-hit by the coronavirus pandemic, even in rich countries like Germany.

Lockdowns are forcing children to stay inside often-cramped homes, amplifying tensions that already exist. Food bank closures mean families have to spend of their limited money on basic supplies and without access to social workers, instances of violence and abuse are easier to miss.

A small Christian charity that provides help to about 1,300 poor families across Germany is now delivering food, diapers, soap and

children's games to their doorstep. Normally, children would be visiting one of the 27 centers run by the Arche, or Ark, where staff offer free lunches, tutoring and a sympathetic ear.

With social distancing measures in force, those centers have been shut down. Now staff are experiencing heartbreaking moments when they drop off aid packs at families' homes, says spokesman Wolfgang Buescher.

Younger children struggle to understand that they can't run out and embrace the charity staff they used to play with every day. Those previously living on

the poverty line are now struggling even more, said Buescher. The group estimates that without food banks and school lunches, families are now having to spend on average 250 euros (\$275) more a month on essentials.

Staff are trying to provide one-to-one tutoring to older children using video chatting apps, to ensure they don't fall too far behind on their school work.

But there's a limit to how much help they can provide from a distance, when some families of nine are living in a 75 square-meter (800 square-foot) apartment.

UN health agency on defensive after Trump slams it on virus

By JAMEY KEATEN

Associated Press

GENEVA (AP) — In a heartfelt plea for unity, the World Health Organization's chief sought Wednesday to rise above sharp criticism and threats of funding cuts from U.S. President Donald Trump over the agency's response to the coronavirus outbreak.

The vocal defense from the WHO Director-General came a day after Trump blasted the U.N. agency for being "China-centric" and alleging that it had "criticized" his ban of travel from China as the COVID-19 outbreak was spreading from the city of Wuhan. Tedros, an Ethiopian and the WHO's first African leader, projected humility and minimized his personal role while decrying invective and even racist slurs against him amid the WHO's response to the disease. The new coronavirus has infected more than 1.4 million people and cost over 83,000 lives across the globe. "Why would I care about being attacked when people are dying?" he said. "I know that I am just an individual. Tedros is just a dot in the whole universe."

But he dodged questions about Trump's comments, while acknowledging the the agency was made up of humans "who make mistakes," and insisted his key focus was saving lives, not getting caught up in politics.

In this Monday, March 9, 2020 file photo, Tedros Adhanom Ghebreyesus, Director General of the World Health Organization speaks during a news conference on updates regarding on the novel coronavirus COVID-19, at the WHO headquarters in Geneva, Switzerland.

"No need to use COVID to score political points. You have many other ways to prove yourself," he said. "Without unity, we can assure you, every country will be in trouble."

Avoiding any direct mention of Trump, Tedros' comments testified to the often-delicate task faced by U.N. leaders when criticized by member states. That challenge is especially difficult with the United States, the biggest donor to the world body and its offshoots. At the White House on Tuesday, Trump first said the United States would "put a hold" on WHO funding, and then revised that to

say, "We will look at ending funding." He took aim particularly at its alleged criticism of the U.S. ban on travel to and from China.

"The WHO ... receives vast amounts of money from the United States," Trump said. "And they actually criticized and disagreed with my travel ban at the time I did it. And they were wrong. They've been wrong about a lot of things." Generally, the WHO has been careful not to criticize countries on their national policies, and it was not immediately clear what specific criticism Trump was alluding to.

Trump's remarks came as

many governments, particularly in Europe, have started to brush aside, ignore and criticize WHO recommendations on issues of public policy, like whether travel restrictions are warranted or whether the public should wear masks. In guidance that dates to Feb. 29, WHO advises against travel or trade restrictions with regard to countries facing the outbreak - now nearly every country in the world - arguing the measures could divert resources, prevent the delivery of aid, and hurt economies. The United States contributed nearly \$900 million to the WHO

budget for 2018-2019, according to information on the agency's website. That represents one-fifth of the WHO's total \$4.4 billion budget for those years.

The U.S. gave nearly three-fourths of the funds in "specified voluntary contributions" and the rest in "assessed" funding as part of Washington's commitment to U.N. institutions.

A more detailed WHO budget document provided by the U.S. mission in Geneva showed the United States provided \$452 million in 2019, including nearly \$119 million in assessed funding. In its most recent budget proposal from February, the Trump administration called for slashing the U.S. contribution to the WHO to \$57.9 million.

Some African leaders and the U.N. chief rallied around Tedros and the agency, insisting a worldwide public health crisis was no time to reduce the budget of the entity working to coordinate an often-disjointed international response. U.N. Secretary-General Antonio Guterres said the WHO "is absolutely critical to the world's efforts to win the war against COVID-19" and must be supported. Once the pandemic ends, he said, there must be an investigation into how it emerged and spread so quickly as well as into the reactions of all those involved in the crisis so lessons can be learned. □

Fighting in Yemen kills over 270, rebels suffer heavy losses

By AHMED AL-HAJ

Associated Press

SANAA, Yemen (AP) — Heavy fighting in Yemen between pro-government forces and Shiite rebels killed more than 270 people in the past 10 days, government officials and tribal leaders said Wednesday.

The officials said forces of the internationally recognized government dealt a heavy blow to the rebels, known as Houthis, in the provinces of Marib, Jawf and Bayda.

The U.S.-backed, Saudi-led

coalition backing the government of President Abed Rabou Mansour Hadi carried out more than 370 airstrikes against the Houthis in less than two weeks, the officials said.

They said the clashes have left more than 270 dead and at least 300 wounded from both sides, with the Houthis suffering heavy losses.

The officials spoke on condition of anonymity because they were not authorized to brief the media, while the tribal leaders did so for fear of reprisals.

Abdu Abdullah Magli, spokesman for the Yemeni Armed Forces, said they wrested control of the strategic Hilan mountains, west of the oil-rich province of Marib about 115 kilometers (70 miles) east of the Houthi-controlled capital, Sanaa.

He said the government forces reclaimed the Labnat military camp in Jawf province and were progressing toward the strategic northern city of Hazm, the provincial capital of Jawf.

The Houthis, who took

Hazm last month, dismissed the government claims, saying they still control the camp.

Yahia Sarea, a spokesman for the Houthi forces, said they fired a ballistic missile targeting government forces in southern Abyan province. There were no immediate reports of casualties.

The violence flared up late last month after a foiled rebel drone and missile attack targeting the Saudi capital. Saudi Arabia's Air Defense Forces said they intercepted and de-

stroyed a ballistic missile over Riyadh. Another missile was also intercepted and destroyed over the southern Saudi city of Jizan, which borders Yemen, they said.

The missile attack prompted the coalition to launch an intensive air campaign on rebel-held Sanaa and other areas, in what they say was aimed at "destroying legitimate military targets" held by the Houthis. Yemen, the Arab world's poorest nation, has been convulsed by civil war since 2014. □

Housing market chills, layoffs, US cos. dial up virus fight

The Associated Press undefined

The outbreak of the coronavirus has dealt a shock to the global economy with unprecedented speed. Following are developments Wednesday related to the global economy, the work place and the spread of the virus.

PAYCHECKS STOP: Companies are in survival mode, which means tens of thousands of people are losing weekly paychecks. Governments are pushing billions of dollars into programs to stop the blood-letting, but job cuts keep coming.

— Tesla furloughed most factory workers and announced pay cuts. Furloughed employees won't be paid, but health benefits will continue. The company anticipates a return to work on May 4, according to an email from Valerie Workman, head of HR for North America.

— Starbucks will provide direct grants to employees worldwide. The Seattle roaster will provide \$10 million in grants for things like housing, utilities, and family funeral costs during the pandemic.

BROKEN HOMES: There were already early signs of weakness in the housing market before the pandemic. New data shows a significant deterioration.

— Mortgage applications nationwide dropped 17.9% in one week, according to

Big Ben's clock tower and the London Eye ferris wheel stand in the distance as the area around Royal Festival Hall is very quiet in London, Wednesday, April 8, 2020.

a Mortgage Bankers Association survey Wednesday. Purchase applications, which hint at future activity, slid 12% in a week, and a whopping 33% from the same week last year. It's far worse in regions where COVID-19 is raging. Compared with last year, purchase applications tumbled 38% in Washington state and 31.3% in New York. California reported a 15.9% drop in applications.

— The number of people paying rent in March slipped 12%, according to the National Multifamily Housing Council. In its first review of the effects of the COVID-19 outbreak, the group found 69% of households had paid their rent by April 5, compared with 81% in the previous month.

HEAVY INDUSTRY: Manufacturers have reconfigured factory floors to provide essential goods despite the lack of a coordinated response from Washington and clashes between President Donald Trump and some of the nation's largest producers.

— The U.S. will buy 30,000 desperately needed ventilators from General Motors for \$489.4 million. GM is producing the devices at cost. The ventilators will go into the Strategic National Stockpile for distribution, HHS said. GM will deliver 6,132 ventilators by June.

— FedEx and DuPont are teaming up to get 450,000 protective suits to U.S. healthcare workers from a plant in Vietnam this week. Federal officials expect de-

livery of 2.25 million sets of protective gear in the next five weeks. The HHS has an option to double that order.

— The Burton snowboard company is donating 500,000 respirator masks to hospitals across the Northeast.

— Amazon is testing disinfectant fogging at warehouses. Amazon has been under pressure from workers to improve safety during the outbreak.

EMPTY SKIES: For the first time in well over a generation, skies are largely empty of planes. The number of people passing through U.S. airports is plumbing lows comparable only to the days following the Sept. 11 attacks.

— For the first time since the

formation of the Transportation Security Administration, the number of passengers screened daily at U.S. airports dropped below 100,000.

The figure recorded Tuesday, 97,130, represents a decline of more than 95% compared with the same day a year ago.

— Airbus is reducing production by about a third. The company delivered 122 planes in the first quarter, but 60 are undelivered. It delivered 36 in March, down from 55 in February as airlines deferred orders.

MACRO DEVASTATION: Despite national efforts to blunt the worst of the economic damage, a significant global contraction is increasingly likely.

— Japan's economy is headed for a 25% contraction in the current quarter, even with the government's fiscal aid package, Goldman Sachs said Wednesday. The report said exports are expected to dive by 60% in the April-June period. The contraction for the world's third largest economy would be a record, since gross domestic product began to be tracked in 1955.

— The virus outbreak will cause a deep recession in Germany, shrinking the economy by 4.2% this year, leading German research institutes said Wednesday in their twice-annual report. Economists predict a swift rebound to growth of 5.8% in 2021. □

Airbus cuts production by a third as airlines struggle

LONDON (AP) — European planemaker Airbus said Wednesday it is reducing production by about a third as demand for aircraft and travel plummets due to the coronavirus pandemic.

The company said it delivered 122 planes in the first quarter, but 60 remain undelivered. It delivered only 36 in March, down from 55 in February, as airlines asked to suspend orders while facing huge costs re-

lated to a near-total shutdown of air travel.

"We are adapting production to the new reality of the airlines," Airbus CEO Guillaume Faury said.

"We are all going through an unprecedented situation and we want to do this together as much as possible."

Faury was unable to indicate how long the production cuts would last, saying only that Airbus would re-

view its output on a monthly basis. "It is not unlikely that aviation will look different after this COVID-19 crisis," he said.

The company said it was keeping tight control on its own costs and has not yet applied for government support, but said it might seek to tap European government programs that help pay the salaries of workers put on temporary leave. □

Celeb chefs unite to feed hungry, help bleeding restaurants

By KELLI KENNEDY

FORT LAUDERDALE, Fla.

(AP) — When Jose Andres first came to New York City, the wide-eyed sailor in the Spanish navy docked on West 30th Street full of ambition. Decades later, the award-winning chef has an upscale food hall on that very street and will serve 40,000 meals this week across the city where he built his dreams, and which is now the U.S. epicenter of the coronavirus. Andres, whose restaurants in the United States include

Derek Fleming, right, a business partner with chef Marcus Samuelsson, controls the crowd outside of their Red Rooster Restaurant as people wait in line for a free meal during the new coronavirus pandemic, Monday, April 6, 2020, in the Overtown neighborhood of Miami.

The Bazaar, Jaleo and the two Michelin-starred Somni, founded World Central Kitchen in 2010. It has served over 15 million meals worldwide after hurricanes, wildfires and other disasters.

Since the pandemic, his organization has served more than 750,000 meals from Miami and Los Angeles to Little Rock, Arkansas and Fairfax, Virginia. It works out of places like libraries, food trucks and shuttered restaurants, feeding 125 hospitals, students in school lunch programs and even

quarantined cruise ship passengers.

Andres has amassed an A-list network around the world, relying on celebrity chef pals including Rachael Ray, Guy Fieri and Marcus Samuelsson to feed the hungry and buoy the humble restaurant kitchens across America where many started their careers.

"I'm in debt to America ... that's the best I can give to America because America gave me a home. America gave me opportunity," Andres told The Associated

Press in a recent phone interview.

In New York City, he set up a cafe to serve the Mount Sinai field hospital in Central Park. In Harlem, he's using "Chopped" TV judge Samuelsson's Red Rooster restaurant to feed families. Samuelsson's Miami restaurant hasn't opened to the public yet, but instead of leaving it empty, he turned it over to World Central Kitchen. They are serving sandwiches and salads there to laid-off hospitality workers, homeless residents and Uber drivers.

Even in crisis, these top chefs aren't serving bland porridge. Recent meals at senior centers in Washington, D.C., included creamy tomato pasta with spring vegetables, and cilantro rice bowls with spiced chickpeas and spinach topped with citrus vinaigrette and crispy tortillas.

Andres was among the first to close his restaurants in Spain, hoping to create a blueprint for chefs around the world on how to use their restaurants and employ workers while feeding the hungry.

"This operation is growing every day," he said. "We want to put America to work in the process of feeding America."

In California, Fieri is on standby, ready with a 48-foot-long rescue kitchen and support team. "Guy is ready to go," Andres said. "This is like war. You need to have troops ready for action."

Fieri compared his longtime friendship with Andres and other famous chefs to "playing in a band."

"When you hang out with generous, philanthropist warlords like Jose Andres, all you want to do is go bigger, go better," said Fieri, who cooked alongside Andres during last year's California wildfires. □

Bocelli: It's not a concert for coronavirus, it's a prayer

NEW YORK (AP) — Andrea Bocelli will sing at the Duo-

mo of Milan on Easter Sunday sending a message of love and hope to the world during the coronavirus pan-

demic, but the Italian tenor says it's not a concert. Instead, he calls it a "prayer." "I received this invitation by the mayor of Milan and by the authorities of the church and of course I answered yes. I'm very happy to do this," he said. "Also, it's not a performance. It's not a concert. It's only a prayer."

"I will go there to pray, and I'd like to think that everyone listening to me sing can pray with me," he said. Accompanied by organist Emanuele Vianelli, Bocelli will sing at the historic cathedral for an audience of none because the Duomo, like most public places, are closed because of the spreading coronavirus.

The performance, though, will air live on Bocelli's YouTube channel at 1 p.m. Eastern.

He's crafted and arranged a special set for the event, which will include holy songs like "Ave Maria" and "Sancta Maria."

"I chose some of the most beautiful pieces of sacred artists and I will sing this kind of music," Bocelli said in a phone interview Wednesday from his home in Forte dei Marmi, a seaside town in northern Tuscany.

In total, Italy has more than 135,00 confirmed cases and over 16,500 deaths from the COVID-19 outbreak. The European country is in its fifth week of a nationwide lockdown. □

Opinion

When will Aruba's tourism industry recover?

By James Hepple, BA, PhD, Assistant Professor, FHTMS, University of Aruba

ORANJESTAD — In the following editions of Aruba Today we will publish an opinion article by James Hepple, today we share Part I. As of April 1 2020, Aruba's tourism industry has shut down as the Government attempts to slow the rate of infections from the COVID19 virus.

By way of background: -

- On March 15th regulations were put in place regulating the entry of visitors.
- On March 21st the Aruban border was closed indefinitely to incoming visitors and returning residents. On the same date a curfew from 9 pm until 6 am was implemented.
- On Sunday March 29th a Shelter in Place order was implemented whereby the population was confined to their homes. No date was given when this order would be lifted. All bars, restaurants, nightclubs, casinos, stores, malls, and other related facilities were deemed non-essential and were closed.
- The airline industry responded to these regulations, and to other similar regulations being implemented elsewhere, by almost immediately suspending air service to Aruba.
- According to the Official Airline Guide (OAG), between March 16th and March 30th Aruba lost 84% of its air seats, falling from 33,338 seats for the week of March 16th to 5,266 seats for the week of March 30th, a drop of 28,072 seats, with further cuts to come.
- Many airlines have indicated they will not be flying to Aruba during the month of April with indications that the suspension of these flights could well continue through May.
- Many cruise lines suspended operations on March 13th and have stated they do not plan to recommence their cruises again until at least May 11th.

- As of Wednesday April 1st, Aruba has reported it had 55 positive cases of COVID 19, which is 487 cases per one million persons. The USA reported 207,637 positive cases on the same date, which is 628 cases per one million persons. In both instances the number of cases is growing significantly on a daily basis.

Aruba and its Economy

Aruba has an official population of 113,000 persons. Of these, 24.3% are between 0 and 19 years old, 61.6% are between 20 and 64 years old, and 14.1% are 65 years old or older.

The Aruban economy is almost completely dependent upon its tourism industry. According to the World Travel and Tourism Council in 2019 tourism accounted for 98.3% of Aruba's GDP of US\$ 2,876 billion and generated 47,000 jobs, that is 99% of all employment. WTTC estimated that visitors spent US\$1.876 billion in Aruba in 2019.

In 2019 75% of Aruba's visitors came from the USA, with 4% coming from Canada and 4% from the Netherlands, with the balance coming from the rest of the world.

Again in 2019, 52% of Aruba's visitors from the USA came from the five states of New York, New Jersey, Massachusetts, Connecticut and Pennsylvania. New York was by far the most important state generating 20% of all visitors from the USA.

The recovery of the tourism industry will depend upon two things – recovery of demand and the situation in Aruba.

Demand

As has been indicated the USA is by far the primary source of visitors to Aruba. It could be argued that visitors from the USA generate 74% of Aruba's GDP, while visitors from New York State alone generate 15% of the country's GDP.

So, following the existing business model, the recovery of Aruba's tourism industry will be heavily dependent upon recovery in de-

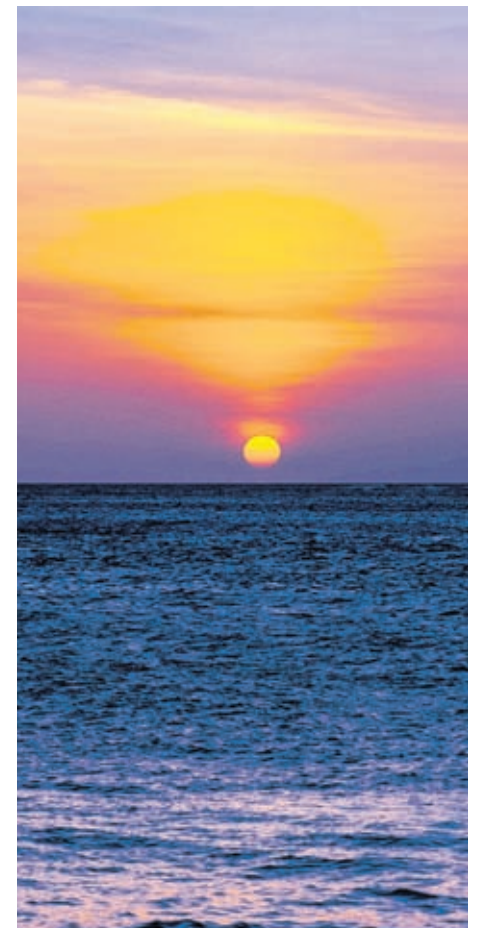

mand from the USA and from the north-east USA.

It might be possible to diversify our source markets, but this will take aggressive marketing and having enough airlift in place and could take a considerable amount of time.

As of April 1st, what do we know (and what don't we know) about COVID 19 and the situation in the USA?

We know: -

- COVID 19 is a novel (new) virus for which there is no effective vaccine.
- The virus is mutating which is not unexpected and is not necessarily a bad thing.
- It will take 12 to 18 months to develop an effective vaccine. It will take a further amount of time to produce the vaccine in large quantities and to administer doses.
- It is highly contagious.
- It can take a number of days before infected persons display symptoms.
- That the USA currently has the largest number of positive cases in the world. As of April 1, it has reported 207,637 cases, a rate of 628 per one million persons.
- That China has probably significantly under-reported the number of cases and deaths.
- According to the World Health Organization the global mortality rate of those infected is 3.4% but this varies very much from country to country. In Italy the mortality rate is 11%, in Spain 9%.
- The overall global policy response has been to "flatten the curve", that is to try and slow the increase in the rate of infections to prevent health care facilities becoming overwhelmed and thus mitigating the number of deaths.
- To achieve this many countries have implemented "social distancing" policies, that is minimizing contact between members of the resident population

and in implementing Shelter at Home policies.

- The most effective long-term policy is "test and trace". This requires thorough effective testing of as many people as possible, isolating those who have been infected and tracing those with whom they have been in contact. This also requires significantly expanding the health care facilities especially hospital facilities and having enough supplies such as masks and ventilators, to deal with the rise in the number of patients.
- That South Korea has probably managed the crisis better than any other nation.
- In some countries, where local transmission has been significantly slowed (China and South Korea), new infections are being caused by visitors from outside resulting in such countries closing their borders to foreigners.
- It is highly probable that the virus will become endemic, like flu, and will reappear again and again in the future.

Part II of this column is to be continued in Aruba Today's edition of Tuesday April 14. □

A Giant Leap Forward

by Carlos M Viana, CCN, OMD

ORANJESTAD — Lately, I make daily calls to check on clients and friends following the recommendations to self-isolate. Many are anxious from the constant news of a frightening world pandemic. Others are bored or angry missing outside activities and the freedom to move about. The emotional drain of the current times can produce an inability to relax physically or mentally.

Anxiety caused by living in isolation or indoors for a long period of time can develop into a feeling of being dissatisfied, especially with people in authority or a system of control. Realize, government and health officials did not cause this situation. The recommendations of staying in your home should not stress us out more, it is to protect us and those who are the most vulnerable and to slow down the amount of people who get sick. With a steady stream of just a few patients, the medical system does not become overwhelmed like we are seeing in many places now.

Stress is an inevitable part of life. As a Traditional Chinese Medicine physician, I appreciate how stress affects the free flow of energy, Qi within the body. Excessive and prolonged stress may impede the delicate balance in our body and trigger severe health problems. Fortunately, there are activities that we can use to help ourselves. The first step is to realize some of the activities to manage a difficult situation are not in our best interest. The first is not eating properly. Snacking all day out of frustration or boredom and eating too many simple carbohydrates will obstruct the flow of Qi, which would affect the Spleen's functions. This means, the ability to utilize digested food will be affected. Digestive problems, weight gain and other issues may develop. Some of us, may not be used to preparing all our meals from scratch at home. With busy modern schedules, we had been dining out and looking for convenient options. Our new reality means we must reconnect with preparing our own food. Choosing the most natural ingredients available, no more impulse shopping, but being careful what we buy to manage our long-term budgets for our long-term health. Brown rice, beans, fresh or frozen vegetables, healthy protein sources should stocked be in all homes now. Luckily for

us, "how to" is just phone call away or an internet recipe search. In our new reality, we all should be including some eatable plants at home. A kitchen garden, a pot of herbs on the windowsill? What a great time to get back to basics. Relearning these skills can help the budget, boredom and stress.

Some people cope with stress by drinking alcohol. The problem with this is, alcohol takes a psychological and physiological toll on the body and may compound the effects of stress. The allure is that, it seems to provide some short-term relief, positive feelings and relaxation. However, as stressful events continue long-term, heavy alcohol consumption can increase the risk of developing alcohol use disorders. Oriental Medicine teaches that when stress builds up, Liver energy flow is impeded causing shoulder muscles to tighten leading to shoulder or neck pain and even headaches. Shoulder tension can be from mechanical strain, improper posture while working or sleeping, lack of exercise and emotional stress. You might be restricted to home but take time to walk, jog, and bicycle or if you can, go to the beach. These activities are permissible in many areas under the 'stay at home' order if you do not gather in groups. Respect others through distance. No beach? Open the windows, exercise to music or one of the many now free, online classes. Be sure to stretch then perhaps, a relaxing bath. I cannot stress enough that exercise helps to unblock the flow of your body's energy and circulation, minimizing the effects of stress on our mind and body. Tai Chi, yoga, and other forms of exercise that focus on breathing, as well as daily meditation help to move Qi, calming the mind and promoting relaxation. Now would be the time to check out the many free online videos.

Do not let your frustration tempt you to go out in public unless it is necessary. If you must, be sure to be to keep safe distance. A mask can help keep you from touching your face or breathing on others. Forget the gloves unless, you are using them correctly. Handling multiple items, then your wallet, phone or other, is just causing cross contamination and making our situation worse. And please, dispose of any of these items in a responsible manor, least they end up in a parking lot, or waterways. Do not leave them for already overstressed workers to pick up. Better to carry a disposable or washable wipe and some portable disinfectants and use it often. And, you still must wash hands and anything that gets touched often! We are all in this together and must all take responsibility to support our communities.

Get the Point! Phyllis, who was a professional dancer explained how all athletes, artists, and skilled workers know that when you are working on your craft, with practice an experience you improve. However, it's not always that you improve steadily. Many times, you take steps forward then suddenly you fall back! It might seem discouraging, but then you leap forward further than you could imagine before. Perhaps, humanity has taken a step back? We all feel it in some degree, there is need to clean house, reflect and gown. Do not give up or be discouraged. There is a rebirth approaching. We like to look at it as we will be taking, a giant leap forward. □
